

HANDLING

Machine loading, picking, loading, palletizing, assembling, deburring/polishing, and sealing

Solving your automation needs for assembly, loading, and other jobs with a lineup of high performance and highly functional product applications such as vision sensors and our FLEXhand series for our high-speed and high precision robots.

World's fastest lightweight compact robot MZ Series

-  Number of controlled axes: 5 or 6 axes
-  Payload capacity: 3.5 to 12kg
-  Maximum reach: 541 to 1,454mm

The MZ series is the world's fastest lightweight compact robots. These robots are available in dust-proof drip proof specifications, multiple installation orientation provide flexibility to automate a variety of processes fall-around compact high performance robot.

The hollow wrist construction for the MZ series provide an internal path for wiring, which provides a streamlined profile for working in confined spaces.

The MZ12, which has a vast workspace, is the addition to the MZ series. This high speed and precise rotation designed with advanced CAD tools for a very light-weight strong, rigid structure, which helps improve cycle time by :
