

HANDLING

Machine loading, picking, loading, palletizing, assembling, deburring/polishing, and sealing

Solving your automation needs for assembly, loading, and other jobs with a lineup of high performance and highly functional product applications such as vision sensors and our FLEXhand series for our high-speed and high precision robots.

World's fastest lightweight compact robot

MZ Series

AMZ03EL	AMZ07	Number of controlled axes: 5 or 6 axes Payload capacity: 3.5 to 12kg
AMZ04	AMZ07L	
AMZ04D	AMZ07P	WW Maximum reach: 541 to 1,454mm
AMZ04E	AMZ07LP	
AMZ04DE	AMZ12	

The MZ series is the world's fastest lightweight compact robots. These robots are available in dust-proof drip proof specifications, multiple installation orientations provide flexibility to automate a variety of processes followed by compact high performance robot. The hollow wrist construction for the MZ series include an internal path for wiring, which provides a streamlined profile for working in confined spaces. The MZ12, which has a vast workspace, is the addition to the MZ series. This high speed and precise rotation designed with advanced CAD tools for a very light-weight strong, rigid structure, which helps improve cycle time by 1
